CAREER OBJECTIVE

Strategic and analytical professional with a background in system analysis and product delivery, adept at solving complex business problems, driving cross-functional execution, and aligning stakeholders through data-driven, actionable solutions.

SKILLS

Consulting skills

- Structured problem solving
- Hypothesis-driven thinking
- Data-driven decision-making
- Business case development
- Data interpretation and insight generation

Analytical and technical skills

- Advanced Excel (modeling, dashboards)
- Executive communication (storyboarding, C-level presentations)
- SQL, Python
- Technology Integration

WORK EXPERIENCE

Consultant, Infosys Finacle, May 2025-Current

- Synthesized decade-long strategic visions of top global retail banks and developed an executive presentation aligning OKRs, KPIs, and organizational enablers, enabling leadership-level strategic alignment and informed decision-making.
- Developed a comprehensive capabilities report across all Finacle products, outlining functional strengths, technical specifications, and value propositions to support senior leadership in business development and stakeholder communication.
- Crafted an insight-driven presentation on Customer 360° and Single Voice of Customer for a leading client, enabling a unified customer engagement strategy to enhance user experience and streamline multi-channel operations.
- Managed Finacle application environments by executing system updates, OS patching, test data provisioning, and access control to ensure high availability and seamless support for consulting operations.
- Accelerated onboarding into Finacle's universal banking suite by completing 40+ intensive modules, gaining deep expertise in core banking systems and consulting frameworks within the Finacle Consulting Group.

Technology Analyst, Infosys Limited, June 2022-May 2024

- Led the integration of a content management system within a digital app and implemented a cache server that reduced direct CMS calls by over 99%, demonstrating strong leadership and cross-functional collaboration.
- Redesigned a solution to automate the viewing of medical underwriting decisions for 50,000+ users, enhancing usability, streamlining workflows, and delivering measurable value to stakeholders.
- Led a UX design overhaul across 95% of application screens, enhancing visual functionality and accessibility, and implemented Google Analytics with zero critical defects.
- Built a responsive alert system enabling real-time email and SMS notifications for payment failures within 15 minutes, significantly improving service levels and operational efficiency.

System Engineer, Tata Consultancy Services, February 2019-June 2022

- Collaborated with cross-functional teams across geographies to drive end-to-end application delivery, maintaining a defect rate below 10% and demonstrating strong interpersonal and analytical problem-solving skills.
- Integrated a user feedback microservice into a client application, ensuring a responsive interface and seamless user experience, contributing to improved client satisfaction and engagement.
- Optimized an insurance application for cross-platform compatibility and performance across devices, leading to a 25% increase in user engagement and a 15% reduction in device-specific issues.

ACHIEVEMENT

- Winner at the Markathon Call for Articles event organized by IIM Shillong.
- Received the Fresco Play Miles Award, on-the-spot, and token of appreciation at the workplace for continuous learning, outstanding performance, and taking initiative.
- Earned a place on the Student Roll of Honor by securing 2nd rank out of over 500 students in the undergraduate program, graduating in the top 0.5% of the class.

EDUCATION

Executive MBA
IIM Shillong, 2025

Master of Computer Applications
Chandigarh University, 2024

Bachelor of Computer Applications
Patna University, 2018

CERTIFICATIONS

- Transformative Leadership for Future Challenges, EADA Business School, Spain.
- Certificates, environment, social, and governance (ESG) course offered by Bloomberg.
